I disagree with the cease and desist order given to Uber. This is a glaring example of government inertia clogging innovative in a capitalist society, and South Carolina is gaining a reputation for leading the way in this regard.

Uber's business model is fantastic allowing true monetary reflection and incentive for both driver and rider alike. I would prefer South Carolina rapidly find a way to give this company room to operate!

Sincerely,
South Carolina Resident and Tax Payer

I'm not sure why you folks would try to pull the plug on Uber. I use Uber on a regular basis in Georgia and North Carolina. Prior to having Uber, most of the cabs I rode in weren't fit for passenger service. Uber vehicles are typically spotless. I expect your actions are direct result of legal actions originating from the cab companies. Well the cab companies had their chance. They overcharged folks and were generally rude in the process. Uber is a model of efficiency and I applaud their efforts. You folks should do the same! Charles Worthen 404 290 1975

Subject: Public Safety Commission's recent decision regarding UBER

To whom it may concern,

My name is Charles Jordan. I am a life long resident of South Carolina. I recently purchased a new vehicle simply to meet UBER standards. I was subjected to a vehicle inspection and complete background check including federal, state and local jurisdictions. This included mvr, criminal, and sexual criminal history before qualifying. I invested my own money in an attempt to provide a high quality transportation alternative to the public of Greenville, SC. I believe your resent decision to ban UBER services is based on special interest and false/imcomplete information. I humbly request that this decision be seriously reviewed. Technological advancement and competition will always stretch the outdated/antiquated laws of past generations. I appreciate the SCPSC' s stance that competition and quality service is the desired outcome.

Sincerely,
Charles Jordan

Subject: Uber

In my travels around the country, I have used Uber to provide transportation. I have found their service prompt, courteous and efficient with newer vehicles in good condition. Please let Uber operate in South Carolina.
Kind Regards,

Norman M. Brody
